Become an Expert in a High Demand Business Program!

Join an AZNext program at ASU!

The ASU Salesforce Developer Academy is open for enrollment.

AZNext is pleased to offer the ASU Salesforce Developer Academy. Salesforce is the leading Customer Relationship Management platform used by thousands of companies to track interactions with customers, streamline processes, monitor sales and generate important business reports. In the last 12 months, nearly 3 million jobs were posted that required Salesforce skills. Participants in this program will learn how to become a certified Salesforce Developer under the guidance of ASU faculty, industry experts and consultants.

Using Salesforce's Trailhead learning system facilitated by ASU faculty and supplemented by ASU coursework you will gain real world, hands-on experience in developing and configuring salesforce applications that will prepare you for the Salesforce Platform Developer I credential exam.

The program is accessible to people with backgrounds in computing and non-computing fields. You must have completed at least one programming language course with a grade or an industry certificate in full-stack development (Java/C#/web etc.).

To apply for the program, candidates will be asked to submit an online application and complete a pre-assessment to verify eligibility and baseline skills required for admission.

Program Timeline

The program consists of 15 weeks of faculty-facilitated instruction including readings, exercises, and labs using Salesforce's Trailhead learning system. A weekly online live lecture including industry professionals will discuss each week's topics. The first session will commence in the first quarter of 2022 with additional cohorts scheduled throughout the year.

- Week 1 Introduction to Salesforce
- Week 2 Understanding Salesforce Data Model
- Week 3 How far can "clicks not code" take you?
- Week 4 Using SOQL to Retrieve Org's Data
- Week 5 Programming with Apex
- Week 6 Using DML to Manipulate Org's Data
- Week 7 Apex Triggers
- Week 8 Apex Integration Services
- Week 9 Asynchronous Apex
- Week 10 Event-Driven Software Architecture
- Week 11 Working with Visualforce Pages
- Week 12 Working with the Lightning Component Framework
- Week 13 Apex Testing Framework
- Week 14 Deployment—Migration of Applications and Components
- Week 15 Debugging System Issues

Participants will contextualize what they are learning through relevant engagements with working business professionals.

What You Will Receive

Upon successfully completing the course the participant will be prepared and able to take the Salesforce Platform Developer I certification exam. In addition, successful participants may be eligible for an interview for a fulltime position at Deloitte or other AZNext employer partners.

Admission Requirements

Participants must be:

- 17 years of age or older A high school or GED graduate
